EL PASO -

The latest Run to the Hills aka James Dean Memorial Tour went off without a hitch. Some 30 cars showed up for coffee before 28 left together on the annual tour of the southwest. Cars ranged from European and American muscle to a classic American hotrod.

Participants made stops in several towns, and enjoyed the amazing sights and roads of New Mexico's Southwest before stopping in Hatch for a late lunch with live music. It was truly a driver's event, as everyone was exhausted by the day's end, feeling that they have learned something new about their driving and/or their cars.
